*A "Safety Lanyard" is NOT included in the package.

DESIGN OBJECTIVE

For cleaning back-kitchen let alone sinks and stoves with a glass surface.

Not just its blade, but also all its metal parts: blade holding plate and screw are made of stainless steel to make the glass scraper perfect for use with water/dishwashing liquid. Use a safety lanyard for safety nets.

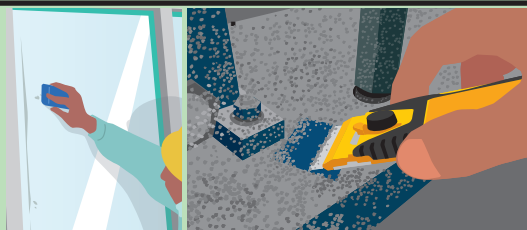

TARGET MARKET & MARKET TRENDS

The X-design handle is known for its strength, rigidity, and acetone-resistance.

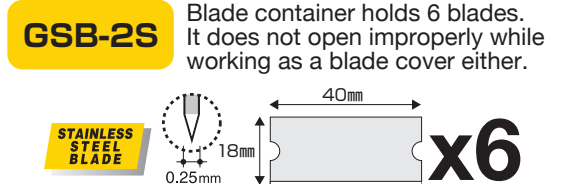

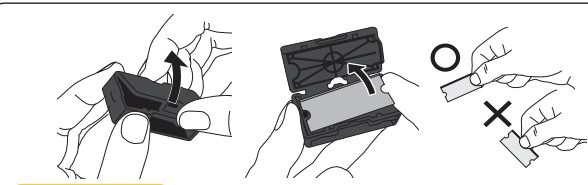

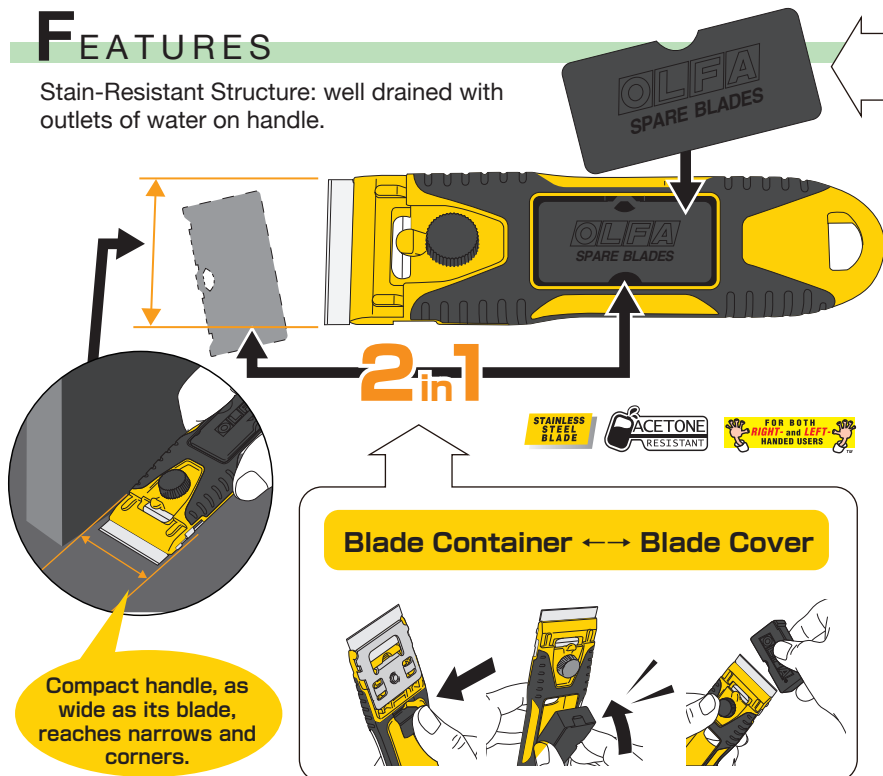

Professional Tool Shops / Industrial Supply / Do-It-Yourself Stores

Cleaning glass surface by scraping off dirt comes in request not only when putting up and refurbishing a new building, but also for periodical professional cleaning. Also for household purposes, it is user-friendly enough, and perfect for scraping on a small area and a curved surface.

FEATURES

Stain-Resistant Structure: well drained with outlets of water on handle.

How to replace blade
