DESIGN OBJECTIVE

Amazing tool with an adjustable head that can be used as a Scraper or a Cutter!

OLFA BTC-1/DX is the enhanced version of the consistently popular BTC-1. Its greatest feature is the ability to freely change the position of the head. The position of the head can be easily changed with the screw lock, and the appropriate angle can be set for your task. For example, scraping along a wall can be done with ease by changing the angle of the head. On the other hand, when cutting leather, users can grip the knife as if wrapping it with their hand, making it easy to cut precisely. By switching the front and back of the blade, it can be used for a wide range of tasks.

TARGET MARKET & MARKET TRENDS

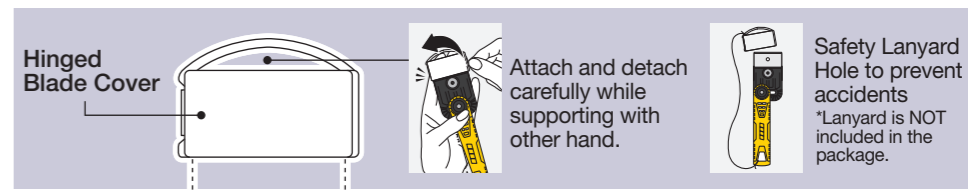

Professional Tool Shops / Do-It-Yourself Stores / Leather Dresser / Hobby & Crafts (Leather Crafts)

For a wide range of applications, from professional workplaces to hobbyist leather craftspeople!

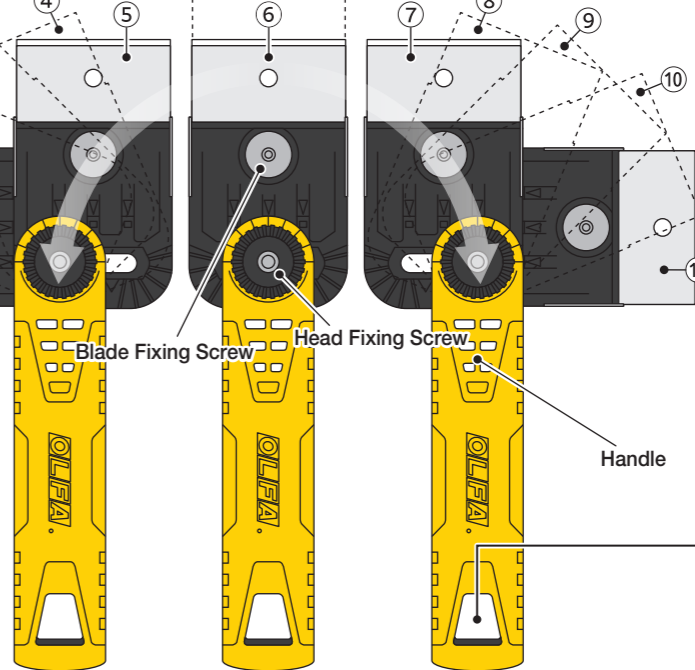

The BTC-1/DX will be welcomed by a wide range of users, from professionals that peel and shave with sharp-edged scrapers to hobbyists in leather crafting. Unlike traditional leather knives that require sharpening and maintenance, the BTC-1/DX is blade replaceable. With simple maintenance, users will always be able to work with a sharp edge.

FEATURES

Head can be adjusted in positions from ① to ⑪
Loosen the head fixing screw to free the head. Tighten it after deciding the position and align the triangle mark with the guide on the handle.
*Head cannot be angled when in the center position.

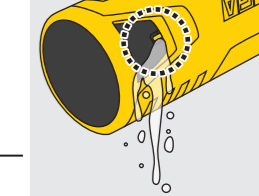

The head can be flipped to switch from using as a Scraper and as a Knife
Can be switched by loosening and removing the head fixing screw.
*Be careful not to lose the tiny nylon washer.

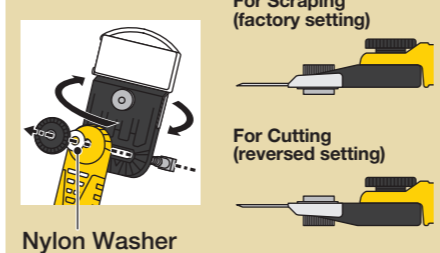

Compatible with large attachments

Designed to free water

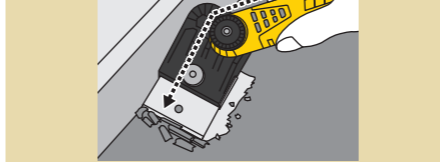

Handle allows water to drain easily from inside.

Cut leather at a more user-friendly angle!

Convenient for tight areas!

SPARE BLADE : BTB-1
2 edges per blade
